

Together, we turn potential  
into opportunity  
and dreams into reality!

**\$25** covers a tutoring session.

**\$150** provides a month of mental health support.

**\$500** funds job readiness and skills training.

But the real transformation happens when we can walk alongside a young person for the long haul.

**\$1,905** supports one youth for an entire year—from the moment they exit the child protection system to the point where they are safe, stable, and building an independent life.

**This is the cost of changing a life.  
This is what your support makes possible.**
